

# Year 9 Spring 2:2

English		Maths	
<p>In English this term, pupils will be studying the “who done it unit” this will involve organising information and ideas clearly in order to determine the outcomes.</p> <p>The key skills in which pupils will be developing during this term will consist of: analysing text, identifying implicit information and organising text.</p> <p>In regards to reading, pupils will be reading a variety of texts such as: newspaper articles, clues and cases studies. The focus on these reading activities will be on retrieval, inference and clarifying.</p>		<p>Pupils will learn to use standard units of measurement to convert smaller units into larger ones and larger measurements into smaller ones. They will also learn to separate the quantity into the given ratio between different units. Furthermore, pupils will solve problems involving direct proportion, they will be solving equations and seeing if they increase or decrease within the same ratio. In addition, pupils will also be solving graphical and algebraic representations by using and creating charts. In order to achieve these outcomes, they will do this by breaking down the algebraic expressions to form an understanding.</p>	
Science	Geography	History	PSHE/RE
<p>Pupils will be able to describe what common household materials are made from, how they were initially produced, manufactured on a large scale and then designed for everyday use. Pupils will explain how many of the materials that we use in the home are either recyclable or not. Pupils will discuss the long-term impact of non-recyclable materials on the planet and climate change. Pupils will learn about which household materials can be recycled and how. Pupils will investigate the impact of polluting materials on our environment.</p>	<p>In the second half of the Spring Term pupils will explore different types of migration and explain push and pull factors. They will consider social, economic, political and environmental reasons for migration and will investigate the major migration routes and destinations. They will identify the push and pull factors for migration between Mexico and USA. Pupils will explore the process of rural to urban migration and explain how global patterns of urbanisation are changing. They will consider the problems of urbanisation and discover how urbanisation has changed Southampton.</p>	<p>In this term, pupils will be studying the period 'Between the Wars and the Second World War'. This will involve understanding why war broke out in 1939. Pupils will identify key turning points of the war. They will investigate how and why the Nazi's organized the mass murder of millions of Jews. Pupils will end explaining how and why the USA joined the Second World War.</p>	<p>In PSHE this half term we will be looking at risk and safety. We will be reading extracts from a poem around 'Becoming a woman' that's referring to Female genital mutilation (FGM). We will be exploring what FGM is, the health risks, the different types of FGM and when and where it is performed. We will watch videos from the British Red Cross about basic first i.e., choking, burns, stroke, strains or sprains, asthma attacks, heart attacks etc.</p>
