## **RATIONALE**

High quality careers education and guidance in school is critical to young people's futures. It helps to prepare them for the workplace by providing a clear understanding of the world of work including the routes to jobs and careers that they might find engaging and rewarding. It supports them to acquire the self-development and career management skills they need to achieve positive employment destinations. This helps pupils to choose their pathways, improve their life opportunities and contribute to a productive and successful economy.

As the number of Apprenticeships rises every year, it becomes increasingly important that all young people have a full understanding of all the options available to them post-16 and post-18 including wider Technical Education options such as T-Levels and Higher Technical Qualifications.

## **COMMITMENT**

NRHS is committed to ensuring there is an opportunity for a range of education and training providers to access pupils, for the purpose of informing them about approved Technical Education Qualifications and Apprenticeships. NRHS is fully aware of the responsibility to set pupils on the path that will secure the best outcome which will enable them to progress in education and work and give employers the highly skilled people they need. That means acting impartially, in line with the statutory duty and not showing bias towards any route, be that academic or technical.

NRHS endeavours to ensure that all pupils are aware of all routes to higher skills and are able to access information on technical options and Apprenticeships.

## **AIMS**

The school's policy for access to other education and training providers has the following aims:  
To develop the knowledge and awareness of our pupils of all career pathways available to them, including Technical Qualifications and Apprenticeships.

To support young people to be able to learn more about opportunities for education and training outside of school before making crucial choices about their future options.

To reduce drop out from courses and avoid the risk of pupils becoming NEET (Young people not in education, employment or training).

NRHS fully supports the statutory requirement for pupils to have direct access to other providers of Further Education Training, Technical Training and Apprenticeships. All pupils in Years 8-11 are entitled:

- To find out about Technical Education Qualifications and Apprenticeship opportunities, as part of a Careers Programme which provides information on the full range of education and training options available at each transition point.

- To hear from a range of local Providers about the opportunities they offer, including Technical Education and Apprenticeships – through Options events, group discussions and Taster events.
- To understand how to make applications for the full range of academic and technical courses.
